

THE SUPPLY CHAIN RESILIENCE PLATFORM

Housekeeping (validated entries to doublecheck):

- **Check** who is there from your country (already validated)
- Contact the ALL companies
 - Is it relevant for this company to stay in the platform?
 - Has the company had a supply chain disruption?
 - Has the company lost market share?
 - Lets improve marketplace opportunities
 - POD profile summary structure to keep in mind

 Example: <u>Lithuanian producer of organic dog food is looking for manufacturers</u>

 of air dried meat, vegetables and fruits to work under manufacturing

 agreement.
 - Offers to be complemented/converted to Requests.
 - Requests are more useful than offers.
 - To bring all the company's products into one advertisement.
 Example: If a company sells paints, then place each product not separately but in one ad.

- Activate your client profile (if it is not your client yet please contact him/her by call/email)
- Please check how your client was affected by supply chain distruptions
- Marketplace opportunities (MAXIMUM 3 PER CLIENT)
- Marketplace opportunities will be published once they are manually activated by an organiser

OTHER IMPORTANT THINGS:

- 2-3 days for profile activation (we have to activate participants as quickly as possible);
- 2-3 days to add Marketplace opportunities;
- Every client must have at least one profile;

- Platform should only be used **for CLIENTS** and **NOT for EEN** consultants!
- Companies that have not been affected by the current situation and simply want to make a
- profit: will be eliminated

If you have more question, you can breathily contact Alfred Šostko.
